

5 TIPS to prevent Lost Pups!

Keep your dog from becoming lost this summer!

1. Be sure your dog wear her collar with a clearly visible ID tag at all times. Check that the information on the tag is up-to-date.

2. Update your dog's microchip information or get her microchipped if she hasn't already been.

3. During parties, be sure to inform guests that all gates and doors need to be securely latched to prevent your dog from wandering.

4. If your dog is stressed by parties, consider keeping her in a safe room with her favorite toys away from your guests.

5. Leave your dog at home during Independence Day fireworks to avoid a stressed and scared pup running away in the dark.
